Deferred Compensation (457 Plan)
Life Insurance
Group Medical, Dental and Vision Insurance

Responsibilities:

Design and Manage the Construction of Levees,
Floodwalls, Bridges, Pump Stations, Roadways,
Locks and Dams

Satellite Flood Monitoring

GIS Product Application

3D Groundwater Modeling

Digital Mapping Product Application

Steady State and Dynamic Hydraulic Modeling

Geo-Modeling

Application of numerous Civil and Structural
design software products

Professional Training:

Experience opportunities for hands-on-training,
attend and participate in technical seminars and
conferences as well as opportunities to pursue a
Professional Engineer License along with
advanced degrees.

Professional Development:

Begin Employment as a CE Trainee.

CE-I (*Promotion with salary increase
after 7 months as a CE Trainee*).

CE-II (*Promotion with salary increase
after 12 months as a CE-I*).

CE-III (*Promotion with salary increase
after 24 months as a CE-II*).

Potential Management with a P.E. license

**Reasons to join the
Office Of Water Resources Team:**

We are a Professionally driven organization
focused on public service.

We promote the rapid development of new
engineers through progressive job responsibility
and exposure to a wide variety of tasks and
assignments requiring unique and innovative
solutions through a collaborative team approach.

We are leaders in the advancement of water
resource technologies through research
sponsorship with the University of Illinois,
Illinois State Water Survey and other
government agencies.
